HOT OR NOT?

Our friends in the wedding business on what they're loving at the moment and—even better—what they would like to forget.

HOT: We love, love, love all of the color that brides are bringing in to their weddings. Also, dessert, cookie, and popcorn bars have been fun. And after-parties are a huge hit with guests right now.

NOT: Black and white weddings, "Single Ladies" during the bouquet toss, chocolate fountains.

JORDAN PAYNE

JORDAN PAYNE EVENTS

HOT: The trend I am loving at the moment is all things flowy! I am loving carrying the flowy design/look throughout the wedding—from the bridal gown to the cake to the handle of the bride's bouquet to the flowy drape lining a ballroom or tent ceiling. Flowy designs are elegant and so fun to pull into every element of the wedding.

NOT: The trend I am so over is candy buffets/candy bars. Candy is great and all, but the eight to nine unique glass jars with different types of candy in the color palette of the wedding has been done, so it is time for another favor or candy trend!
